

# Secret O.W.L. Society Manifesto

What I focus on grows.  
I stay focused on what I want.  
I express *gratitude* every day.

I believe that it's all  
happening **FOR** me.

*I am taking 100% responsibility for my life.*

I believe in  
keeping things  
**SIMPLE.**

Every year, my life  
is 10 times better  
than the year before.

I am taking advantage  
of the opportunities that  
are right in front of me.

I have everything I need already inside me to  
*design the life I want to live.*

"This might not work.  
Let's try it!" - *Seth Godin*

I embrace the season of life  
that I am in right now.  
I am making the most of it  
and I am at peace with it.

I trust and listen to my intuition.  
*I always know what step to take next.*
